ABOUT ME

My copy partner finishes my sentence as we close in on a great idea. The serif hits in just the right spot to form the perfect logomark. The junior art director's eyes light up as her design is chosen. These are the little moments that have made me love my job for over 20 years, developing marketing promotions on both in-house and agency-side creative teams.

EDUCATION

Bachelor of Art in Graphic Design, Bridgewater State University, January 1993

INTERESTS

Seeking new design inspiration
Long distance walking adventures
Crafting tablescapes and artful food displays
